

FABRIC PEST TREATMENT PREPARATION SHEET

(Including webbing clothes moth, case-making clothes moth, carpet beetle, etc.)

Items that must be completed prior to our arrival:

- Check clothing items carefully. Find everything that appears damaged or you suspect may have fabric
 pest activity. Look for small holes in any fabrics made from animal origin such as wool, wool blends,
 silk, furs or feathers. Infested articles should be cleaned according to manufacturers' directions or
 discarded.
- Look for damage in wool carpets, blankets, wool-covered furniture, animal hides, and fly-fishing lures.
 Let our office staff or technician know what items you think may have damage or fabric pest activity.
- Pull all furniture and other objects as possible from the floors, and vacuum all rooms thoroughly.
 Vacuum under all furniture as much as possible. Also, vacuum all upholstered furniture, including seams in cushions with crevice attachments. Dispose of bag outside.
- o Remove all items from closets and the vacuum floor of the closet. Dispose of bag outside.
- o Remove all pets and birds. Cover fish tanks and turn off pumps.
- o Be prepared to leave, and vacate the premises for at least 4 hours.
- If you are ill or pregnant or if you or any member of your household has sensitivity to chemical odors
 or other odors, Zaver Pest Control recommends that you contact us for product information and
 consult with your physician prior to the treatment.

After our treatment is complete:

- o Do not enter or allow children or pets to enter the treated structure for at least 4 hours.
- o Immediately upon entering the related structure after the treatment, open all windows and doors and air out thoroughly.
- Clean and vacuum regularly. Don't neglect closets, upholstered furniture, cracks and crevices and under furniture. Vacuum both sides of wool rugs and rotate them periodically.
- o Treated rugs should be shampooed for at least one (1) month.
- Store only freshly washed or dry-cleaned garments made of wool and other fabrics animal origin in airtight containers. Check stored items periodically (every month or two).
- o If you have any questions before or after the treatment, please call (800) 465 0986.
